

North Park Region Advisory Council Planning Studies Public Meeting Follow Up

Thank you again to everyone who attended the public meeting on August 2, 2022, regarding the planning studies for Back Creek Park, Back Creek Greenway and Doby Creek Greenway. We sincerely appreciate all the feedback and look forward to working with you and your neighborhoods in the future.

As promised, we attached in the Documents Section the two handouts from the meeting: Current Projects in the North Region and the Capital Improvement Plan (CIP) engagement flyer, as well as the presentation. Please note that we have another in-person CIP engagement opportunity **Thursday, August 11 from 10:30 – 6:30** at Bette Rae Thomas Recreation Center: 2921 Tuckaseegee Rd, Charlotte, NC 28208. This event is a drop-in event, so please stop by at your convenience.

For your convenience, we are providing the following links to provide feedback on each individual topic.

2024-28 Capital Improvement Plan	https://www.publicinput.com/S0843
Back Creek Park Planning Study	https://publicinput.com/BackCreekParkStudy
Back Creek Greenway Study	https://publicinput.com/BackCreekGreenwayStudy
Doby Creek Greenway Study	https://publicinput.com/DobyCreekGreenwayStudy

To better understand potential future projects, please go to the Mecklenburg County Park and Recreation Master Plan called Meck Playbook (<https://www.publicinput.com/meckplaybook>). At the bottom of the page you can download the full report and the full Greenway Master Plan map.

You can also visit the Mecklenburg County Park and Recreation project hub at <https://www.publicinput.com/meckparkrec> for current Park and Recreation related projects across Mecklenburg County.

We would also encourage everyone to use our Park Explorer page (<https://mecklenburg-parks-meckgov.hub.arcgis.com/apps/data-viewer-application/explore>). It is the easiest way to find parks in your area, and you can also use the tools to find specific amenities (trails, basketball, splash pads, etc.).

As mentioned at the meeting, none of the three projects discussed currently have funding. Once the projects are funded, the feedback you provided in addition to the study conducted will inform the initial design. Additional public engagement will also take place when the projects are funded.
