

Neighborhood Traffic Calming 2022 Program Recap

Traffic & Parking Commission Meeting
December 14, 2022

neighborwaysdesign

Outline

- Traffic Calming Program Overview
- 2022 Project Recap
- Data Analysis
- Lessons Learned and Next Steps

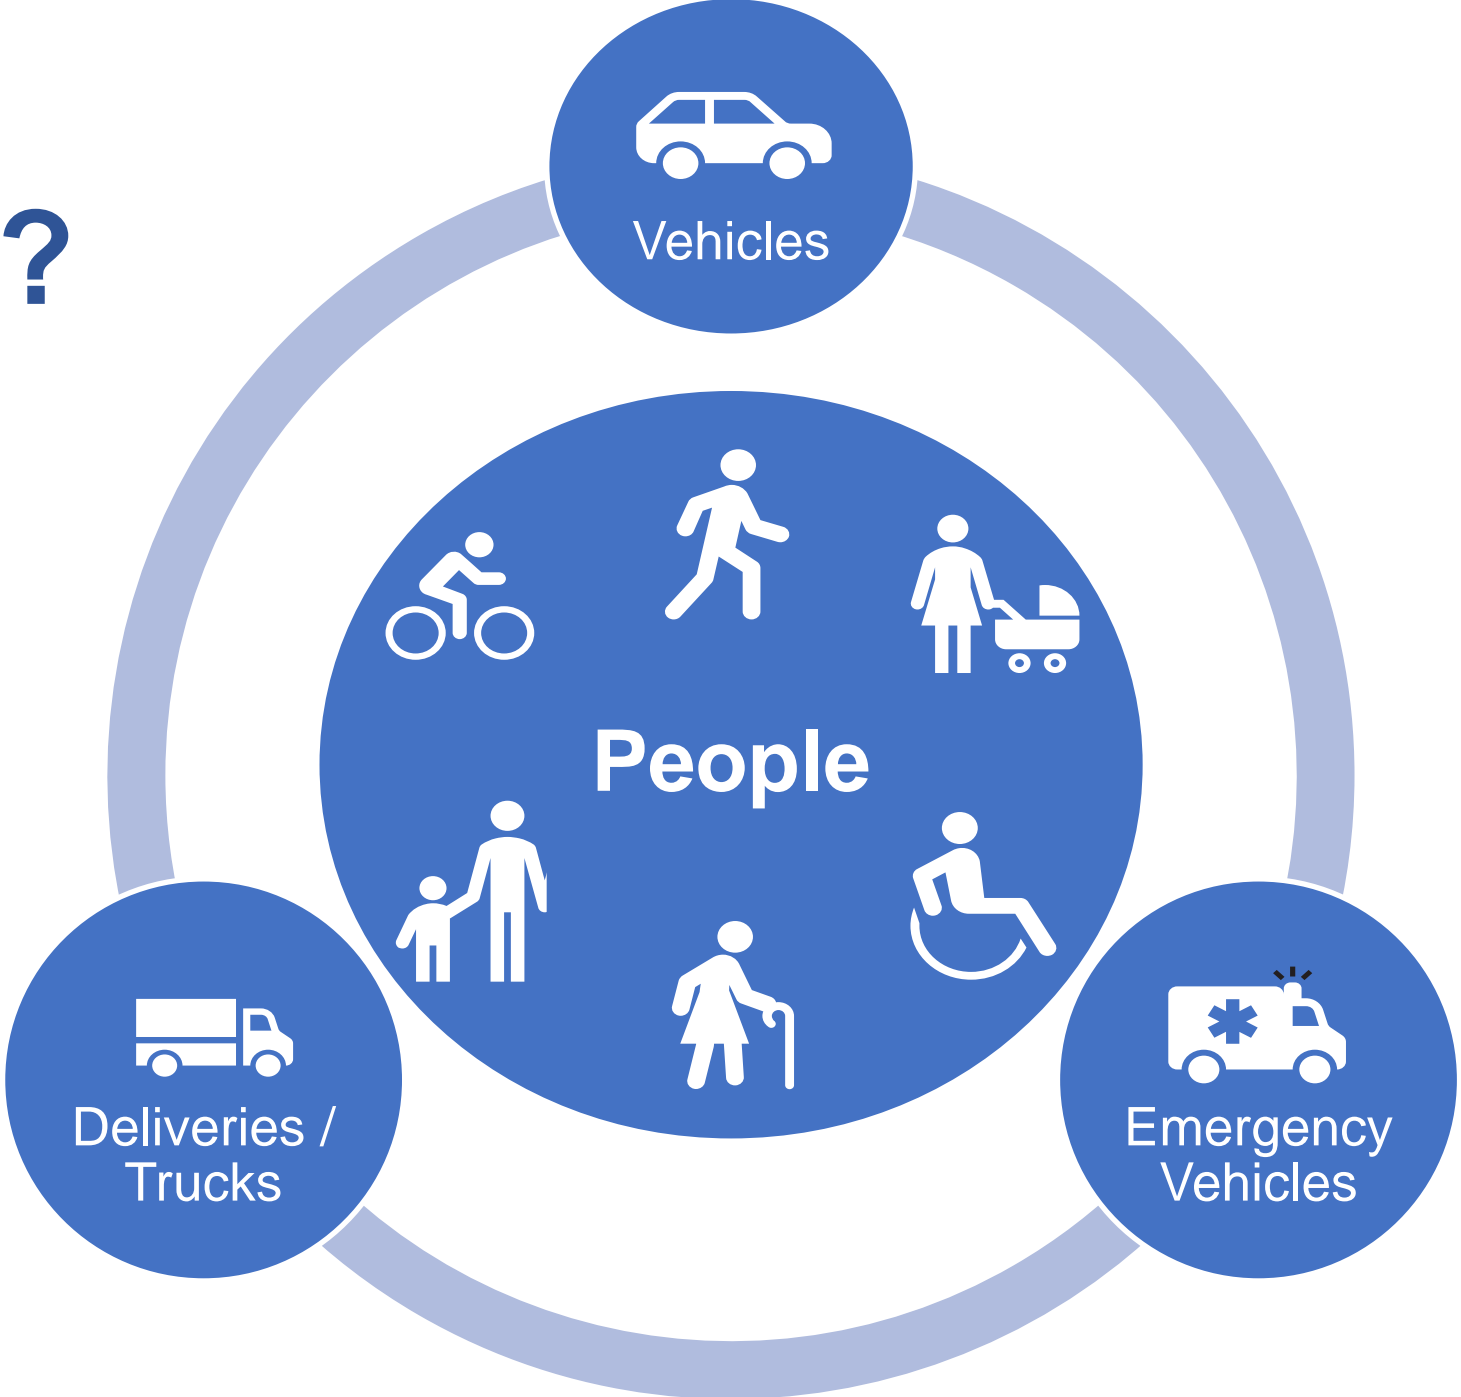

Program Goals

- Slow and calm traffic
- Test ideas
- Collect and evaluate data and feedback
- Pilot to Permanent

Who is this for?

Slower Speeds Save Lives

Program History

2022 Local Roads

 Pilot Installations

 Permanent Installations

**Buffum, Barr,
Barstow,
Dunlap
Zone**

Columbus Avenue

Mall Street

Union Street

Federal Street

Chestnut Street

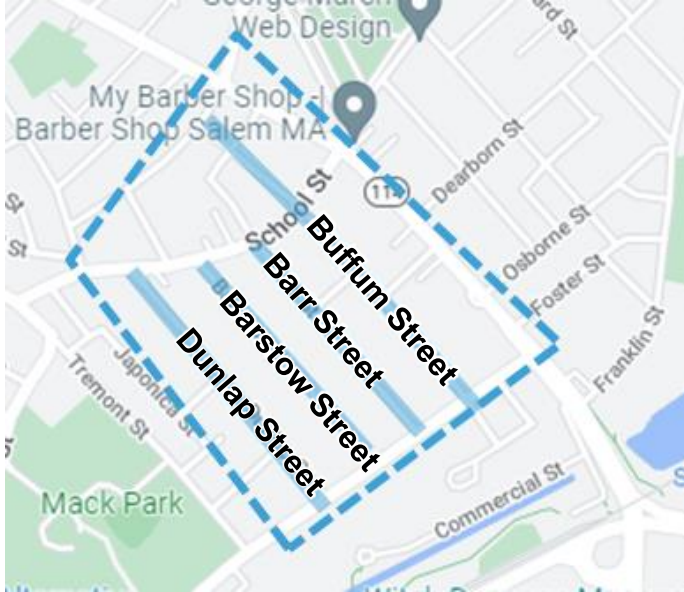

**Cedar
Fairfield
Gardner
Zone**

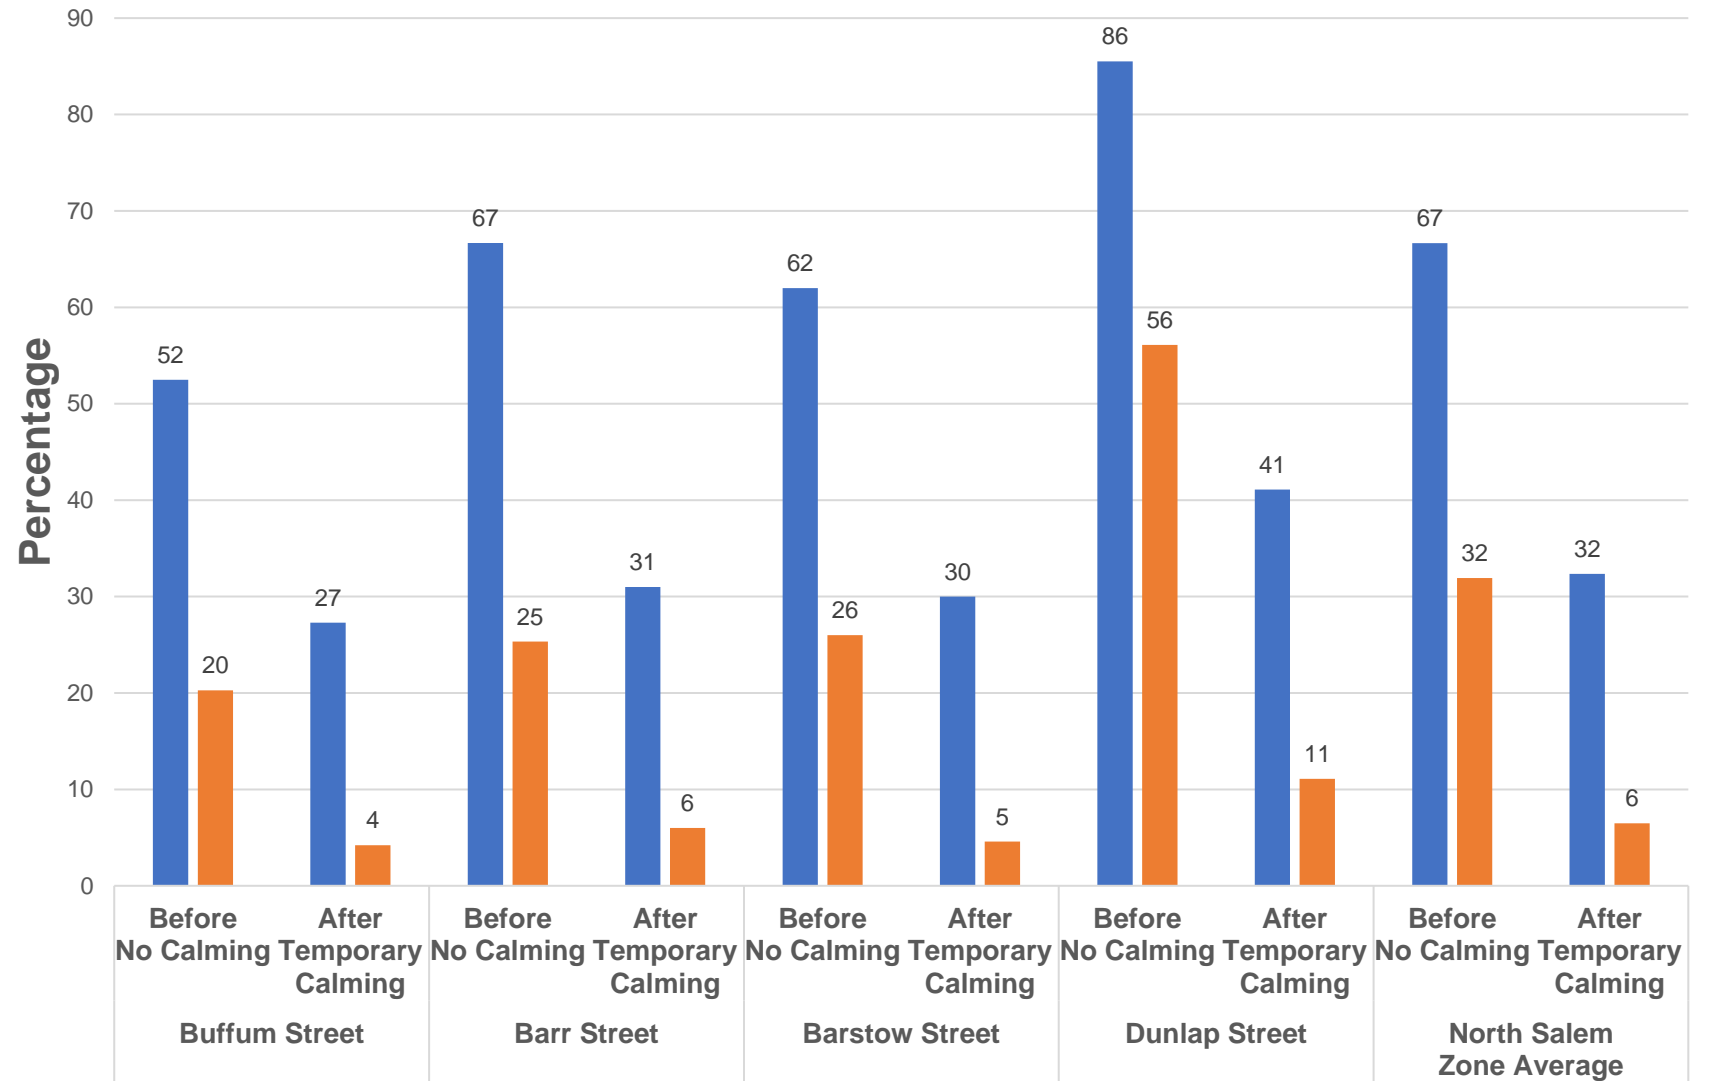

North Salem Pilot to Permanent

North Salem Data

■ % over 20 mph ■ % over 25 mph

North Salem Data

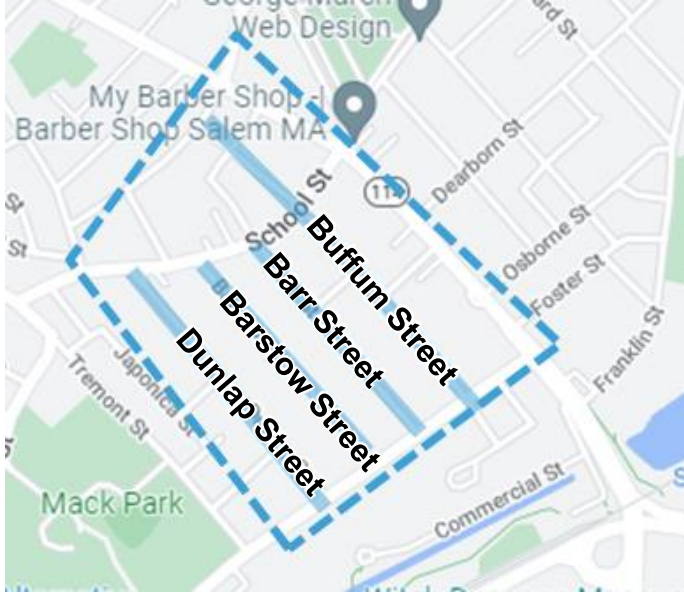

■ % over 20 mph ■ % over 25 mph

North Salem Data

■ % over 20 mph ■ % over 25 mph

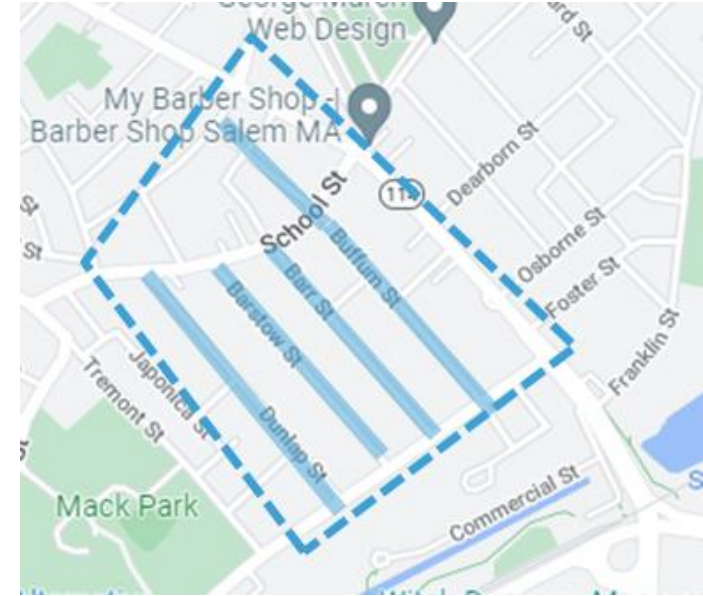

Widest Street

North Salem Zone Data

After traffic calming treatments:

- Average speeds = **19mph (- 17%)**
- Driving over 40mph = **<1% (- 81%)**
- Average daily traffic (ADT) = **546 vehicles per day (- 3%)**

South Salem Zone Cedar Fairfield Gardner

South Salem Data

■ % over 20 mph ■ % over 25 mph

South Salem Zone Data

After traffic calming treatments:

- Average speeds = **19mph (-13%)**
- Driving over 40mph = **0.03% (- 85%)**
- ADT = **318 vehicles per day (-13%)**

Federal St from North St to Boston St (0.55 mi)

Federal Street Pilot

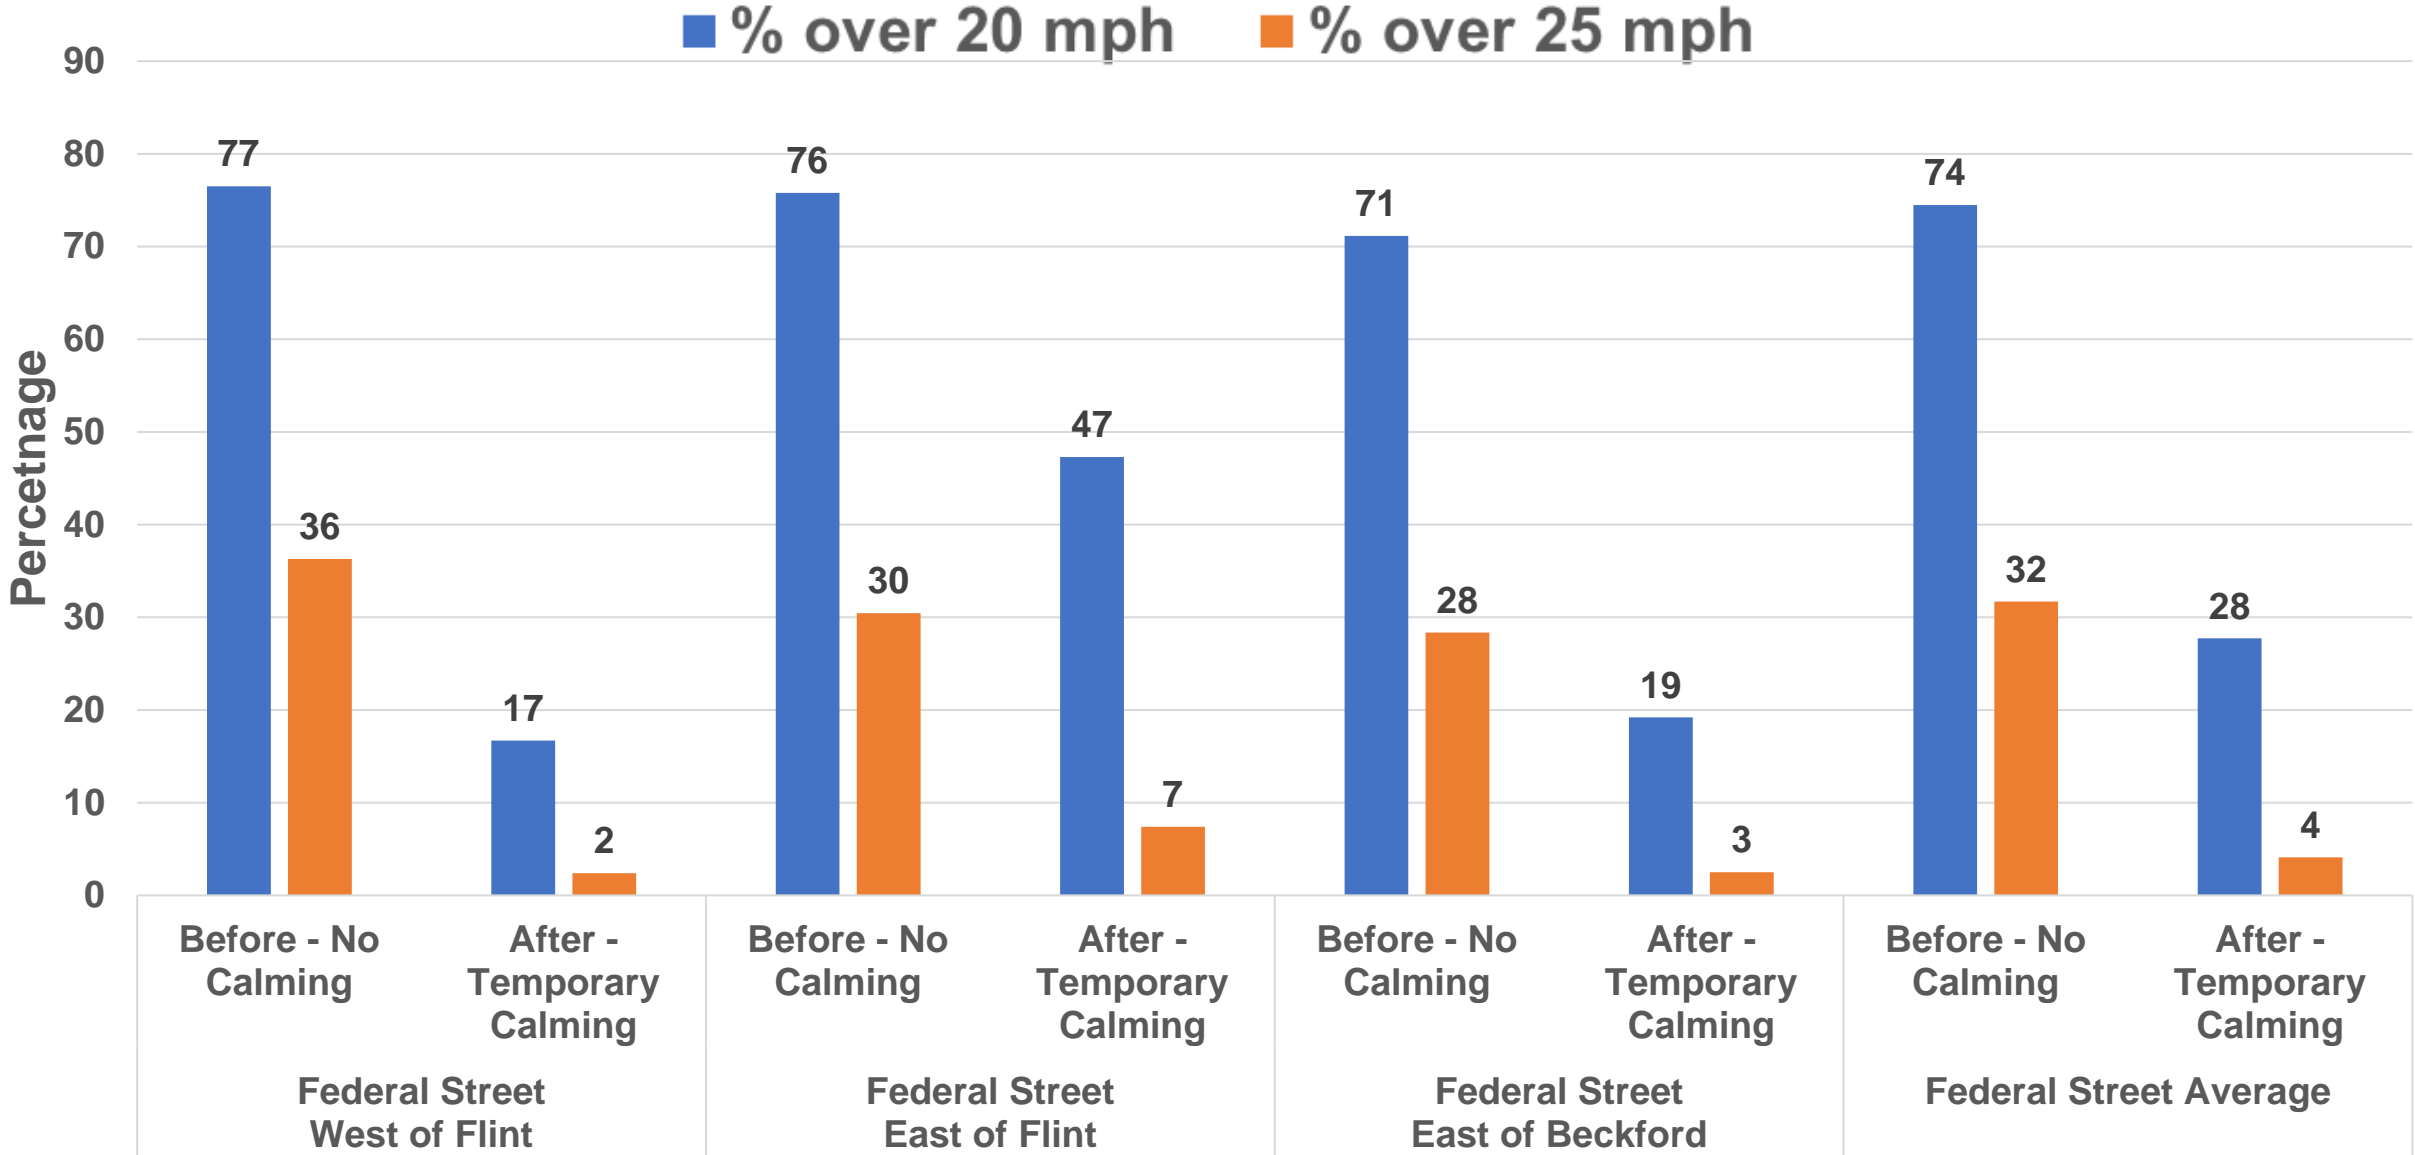

2021 Before

2022 Pilot

Federal Street Data

Federal Street Data Average

After traffic calming treatments:

- Average speeds = **19mph (- 21%)**
- Driving over 40mph = **0.02% (- 93%)**
- ADT = 1,347 vehicles per day **(+35%)**

***after data collected in October**

Posted Speed Limit
20mph

Chestnut Street

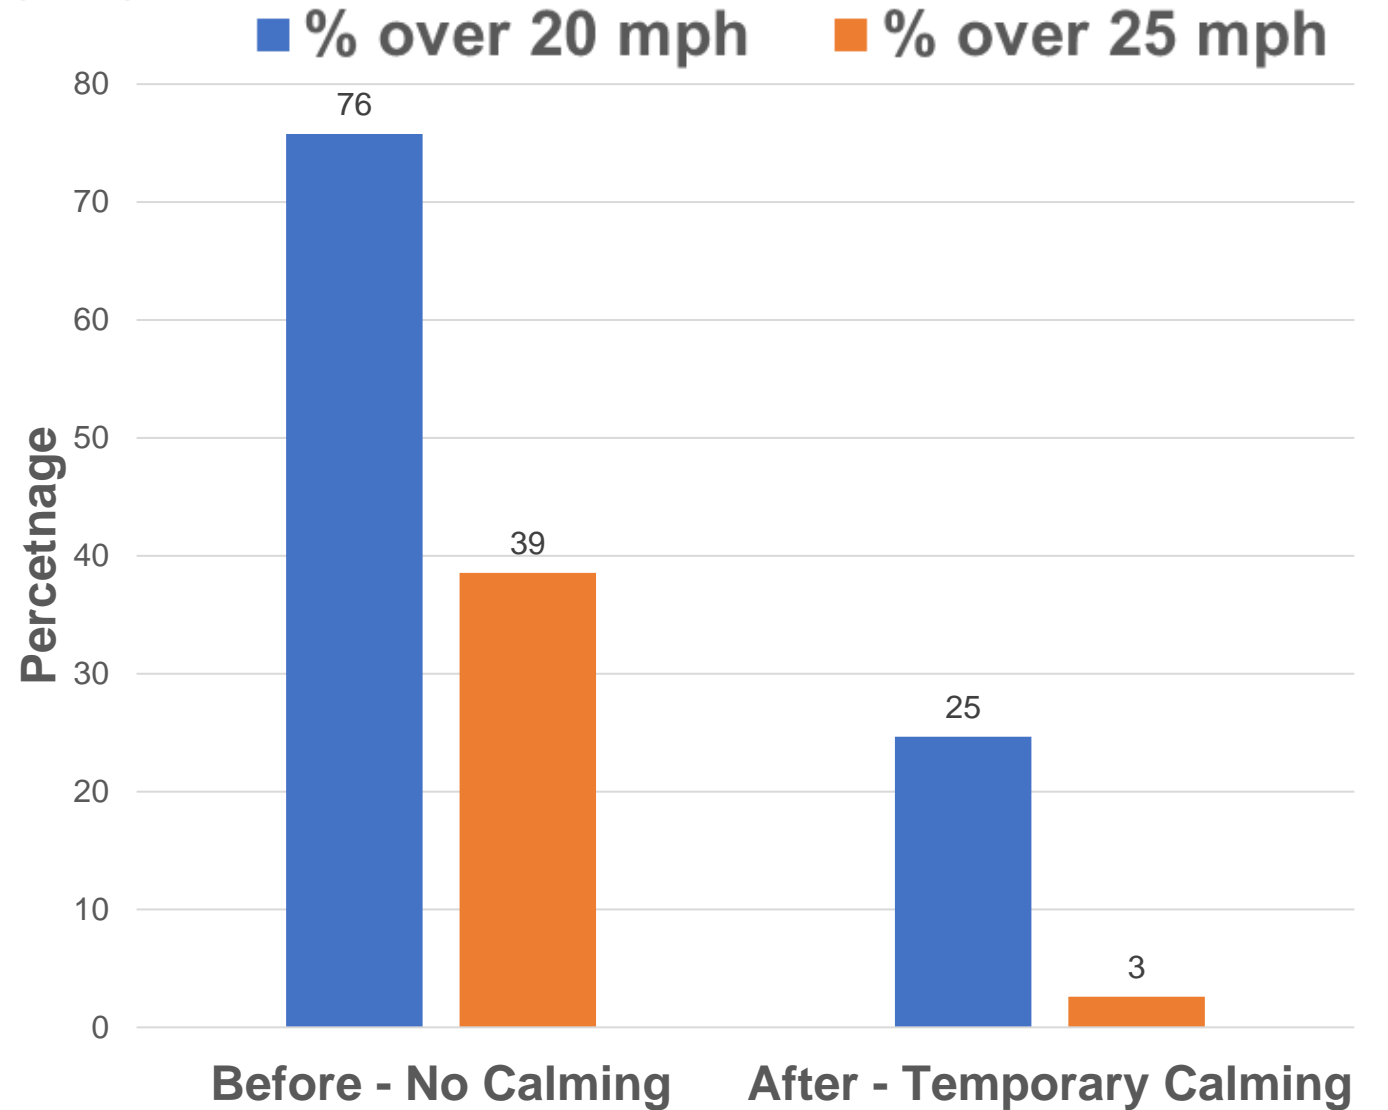

2020 Before

2020 Pilot

Chestnut Street Data

Chestnut Street Data

After traffic calming treatments:

- Average speeds = **18 mph (-27%)**
- Driving over 40mph = **0% (-100%)**
- ADT = 1,172 vehicles per day **(-23%)**

Mall Street: N Wash Sq to Bridge St (0.14mi)

Mall Street Pilot

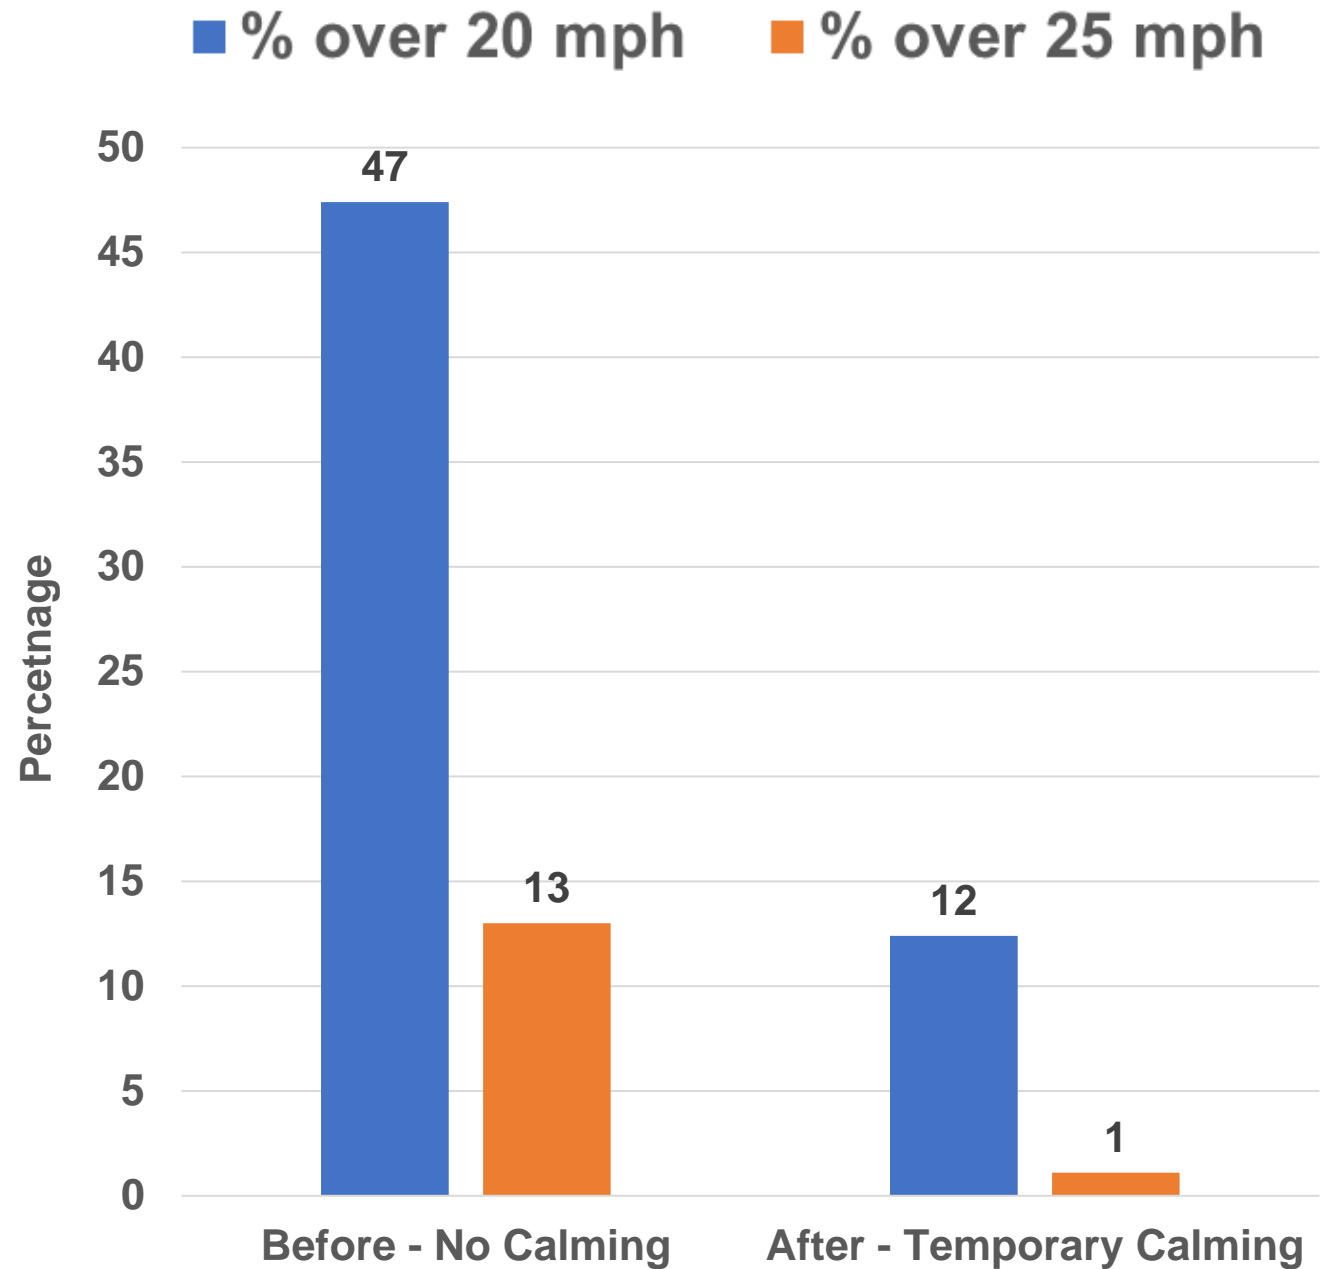

2021 Before

2022 Pilot

Mall Street Data

Mall Street Data

After traffic calming treatments:

- Average speeds = **17 mph (- 15%)**
- Driving over 40mph = **0%**
- Mall St ADT = 420 vehicles per day (+68%)
- Oliver St ADT = 140 vehicles per day (+37%)

***Data collected**

Before = March / April

After = July

Columbus Ave: Fort Ave to Bayview Ave (0.22mi)

Columbus Avenue Pilot

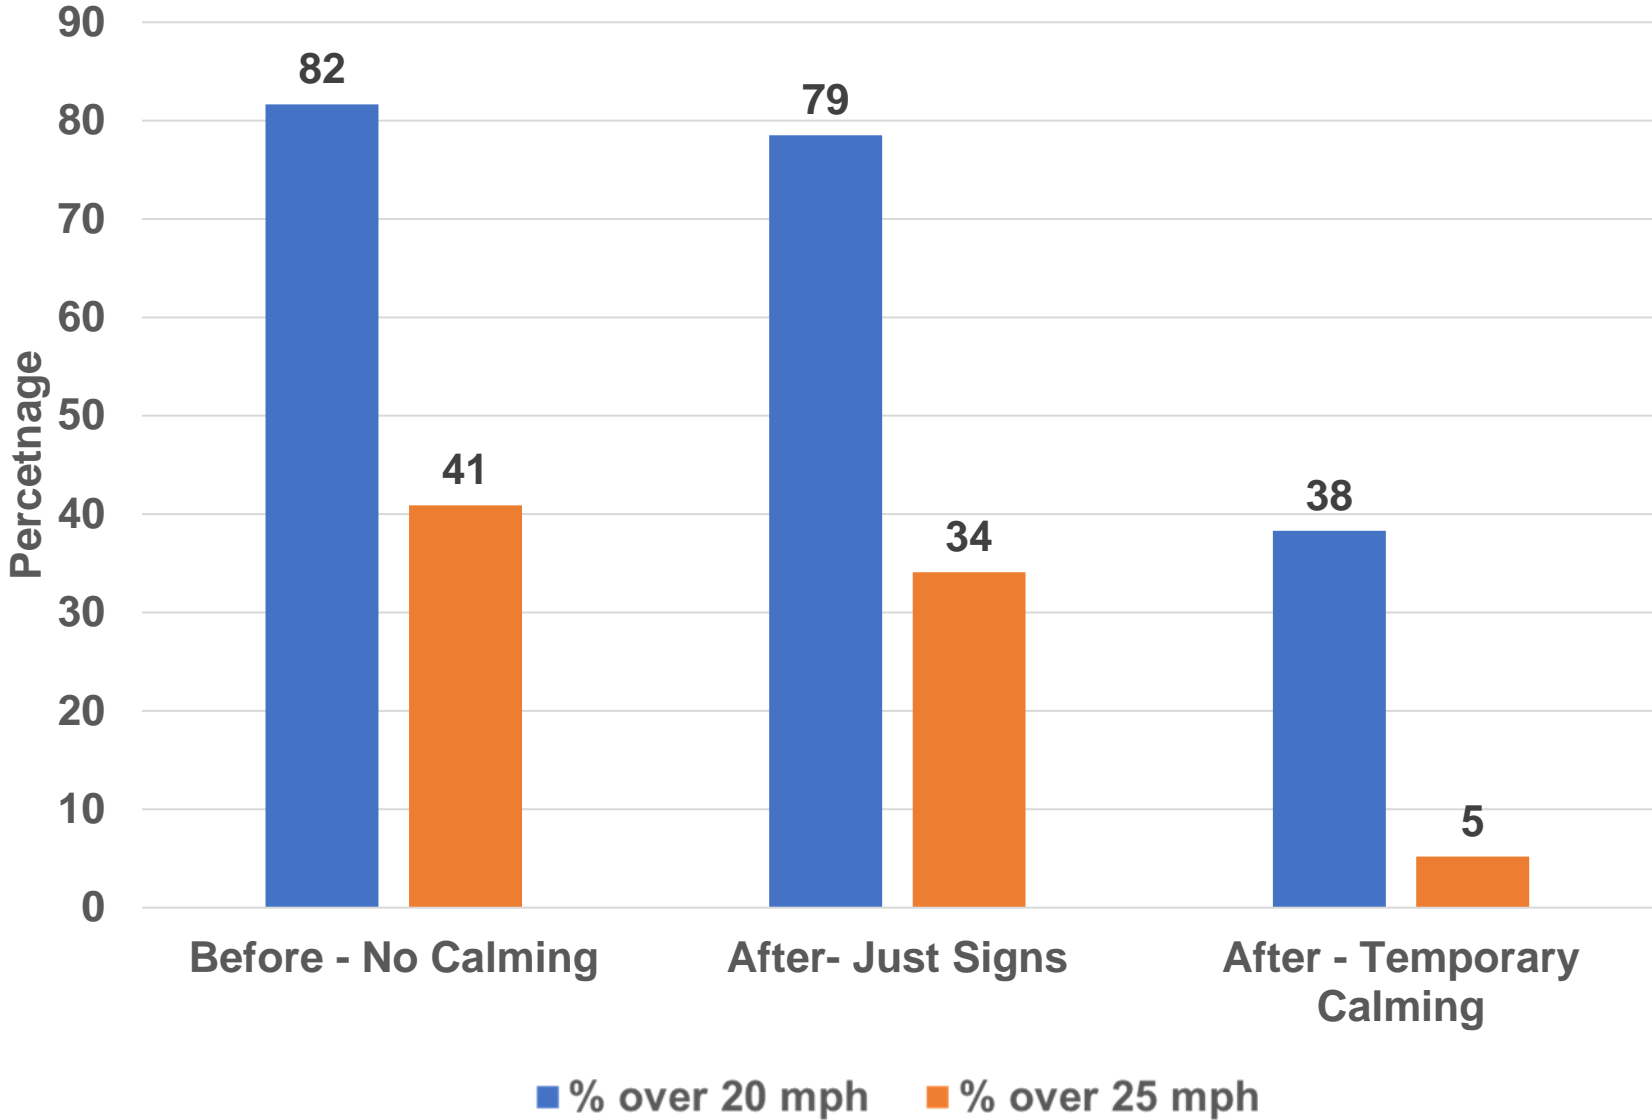

2021 Before

2022 Pilot

Columbus Avenue Data

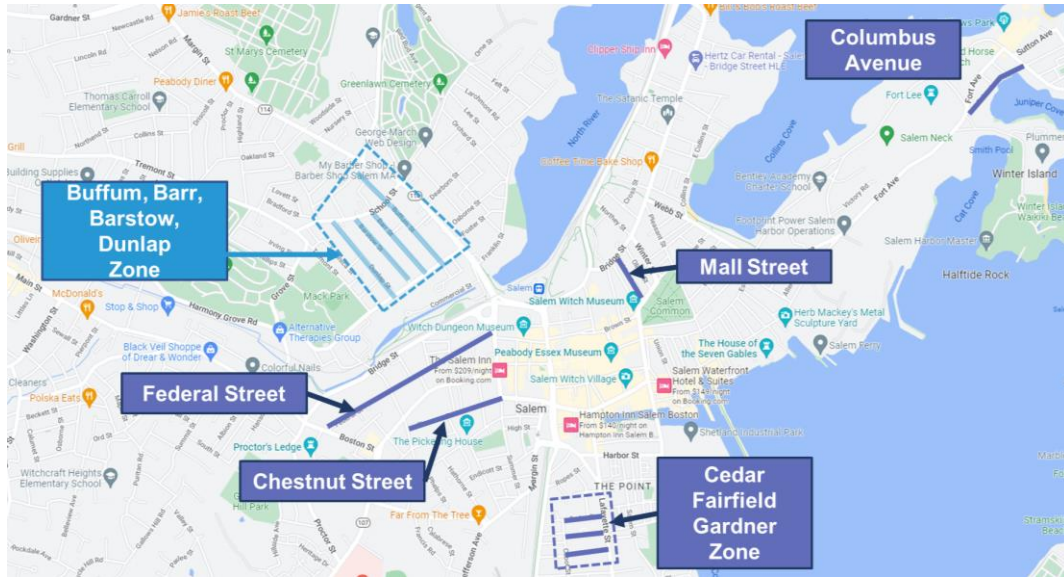

Columbus Avenue Data

After traffic calming treatments:

- Average speeds = **20mph (-18%)**
- Driving over 40mph = **0.03% (- 92%)**
- ADT = **598 vehicles per day (-33%)**

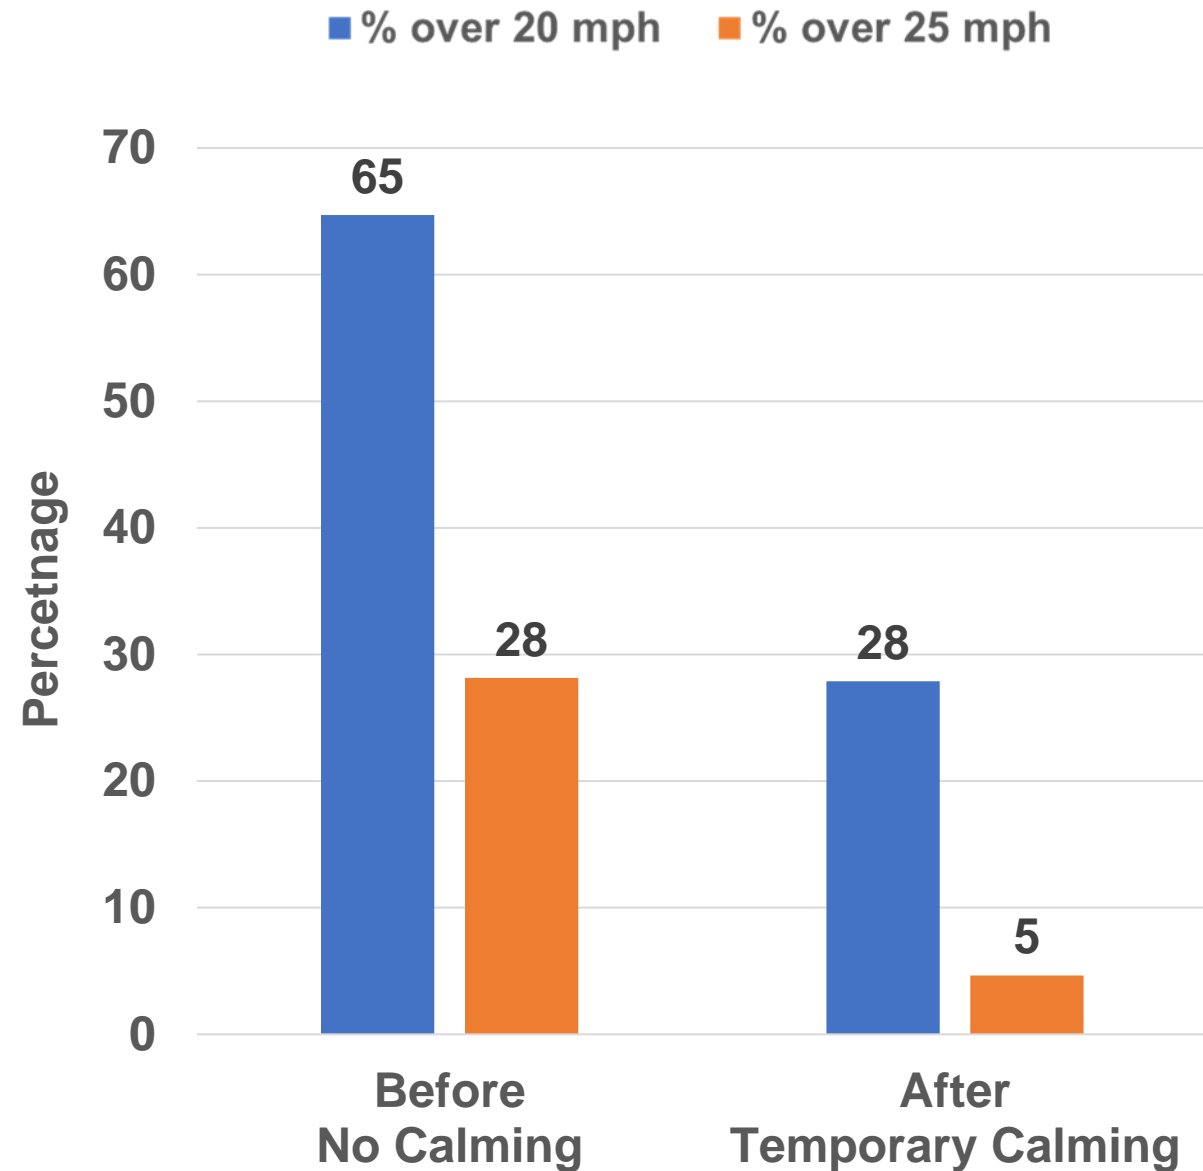

2022 Local Road Data

After traffic calming treatments:

- Average speeds = **19 mph (-18%)**
- Driving over 40mph = **0.04% (- 87%)**
- ADT = **721 vehicles per day (+4%)**

Program Vision

City-Wide Traffic Calming

```
graph TD; A[City-Wide Traffic Calming] --- B[Temporary Pilots]; A --- C[Ordinance Changes]; A --- D[Capital Construction Projects]; A --- E[Policy Changes];
```

Temporary
Pilots

Changes

Capital
Construction
Projects

Policy
Changes

Lessons Learned

- Installation and procurement challenges
- Expand capacity
 - DPS support
 - On-call contractors
- Continue engagement
- Equity prioritization

Next Steps

Winter 2022

- Finish removal of temporary and update inventory
- Program and data evaluation – pilot to permanent
- Feedback survey open through Feb 15th
- 2023 prioritization plan - design and planning

Spring - Fall 2023

- Install temporary pilots
- Install permanent - Cedar, Fairfield, Gardner zone
- Collect and monitor data and feedback

Winter 2023

- Remove temporary and update inventory
- Program and data re-evaluation

Program Feedback Survey

- [Program Survey Live!](#)
- www.publicinput.com/salemtrafficalming#1
- Open until Feb 15th 2023
