#### **Greenways Overview**

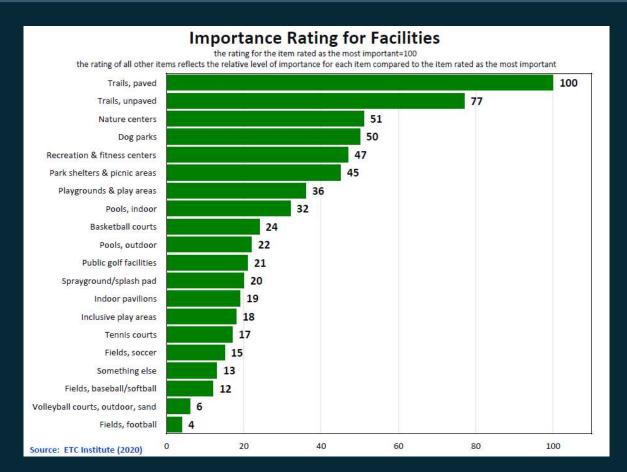

Little Sugar Creek Greenway

- Vegetated natural buffers that help protect water quality, reduce the impacts of flooding and provide wildlife habitat.
- Linear parks that connect people and places
- Trails that provide recreation, transportation, fitness and economic benefits for all to enjoy.
- Promote diversity, health, quality of life, good business and stretch our tax dollars.

#### **Greenways Overview**

- In 1966, the Charlotte-Mecklenburg Master Plan for recreation recommended greenways "as logical natural elements useful in creating a sense of physical form and order within the city."
- #1 Amenity requested by the residents today
- Greenway Master Plan includes 308 miles of greenway trails and 200+ miles of urban trails

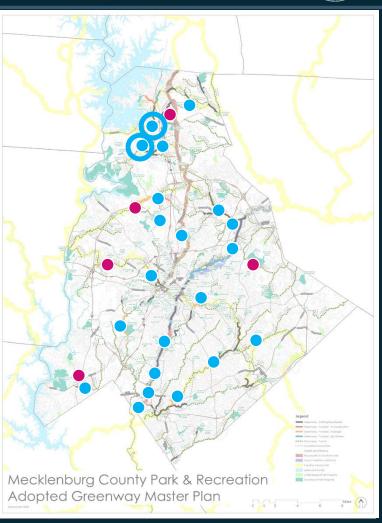

## Accelerated Greenway Plan
