

IS NORTH TEXAS BUILDING TOO MUCH PARKING?

JOIN THE LOCAL PARKING DATABASE FOR A SMARTER APPROACH TO PARKING SUPPLY

GET INVOLVED:

nctcog.org/parking

Contact: Catherine Osborn

cosborn@nctcog.org

The North Central Texas Council of Governments (NCTCOG) is launching a [Regional Parking Utilization Database](#) to study parking demand and context at local DFW commercial properties.

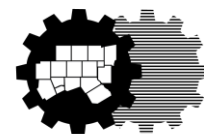

Previous studies show we may be building excess parking spaces, which can drive up project costs, reduce development quality, and have larger impacts on the transportation system.

A parking database may benefit the region by

- Identifying local parking demand
- Reducing the chance of unused, excess parking
- Informing more accurate parking standards

HOW YOU CAN HELP

Property managers and owners from across the region are needed to [volunteer properties](#) for multi-day parking utilization studies. Contact us for more info and please share this opportunity with others.
