To: Early Childhood Committee From: Strategic Partnerships Staff Date: April 9, 2024 Regarding: FY2025 Funding Scenario Options

This memo is in follow-up to the committee's April 2, 2024 meeting. As a part of that agenda, the committee discussed the compiled review scores for the 29 applications submitted for FY2025 funding. The committee discussed several possible funding scenarios (see workbook Scenario 1 – Scenario 3.1) yet did not land with majority or consensus support for any of the scenarios considered. The committee did vote on one item, which was to create a rule for this funding year to set aside any projects scoring below 80%.

The committee asked staff to create additional scenario options for consideration that prioritize the themes discussed as priorities for this year's funding:

- Crisis level funding environment with federal stabilization grants sunsetting and costs rising
- Continued workforce shortages
- Balancing funding workforce development with funding for slots
- The need for sustaining support to create stability within the system & mitigate risk of losing slots
- The difficulty of funding expansion projects in this environment
- Impact of previous grantee performance on future funding recommendations

All of the following scenarios (see workbook Scenario A – Scenario C) also fully allocate the \$45,640 current fund balance in addition to the \$3,974,691 for a total of \$4,020,331 recommended.

	Rules Applied	Result
Α	 Flat funding (FY2024 awarded amount) for all renewal projects scoring over 80% Exception: If an organization requests less for FY2025 than their FY2024 award, allocate their FY2025 requested amount Allocate remainder to the NC Prek Project 	 18 projects funded \$273,963 for NC PreK Project (30% of request) \$0 for Asheville City Schools Summer All other projects scoring above 80% receive funding
B	 Flat funding (FY2024 awarded amount) for all renewal projects scoring over 80% with slots or workforce strategies (based on applicant answers to "strategy" question) Exception: If an organization requests less for FY2025 than their FY2024 award, allocate their FY2025 requested amount Allocate remainder to the NC Prek Project 	 16 projects funded \$422,986 for NC PreK Project (46% of request) \$0 Asheville City Schools Summer \$0 for the Eliada Homes Behavioral & Security Needs \$0 for Read to Succeed Literacy
C	 Flat funding (their FY2024 awarded amount) for all renewal projects scoring over 80% with slots or workforce strategies if at least 75% of the committee recommended funding Exception: If an organization requests less for FY2025 than their FY2024 award, allocate their FY2025 requested amount Allocate 75% of FY24 funding to Community Action Opportunities' projects, based on previous performance drawing down funds Allocate remainder to the NC Prek Project 	 15 projects funded \$709,432 for NC PreK Project (77% of request) \$0 Asheville City Schools Summer \$0 for the Eliada Homes Behavioral & Security Needs \$0 for Read to Succeed Literacy \$0 for OnTrack SECURE
